

# DECORATIVE SCREENS INSTALLATION TIPS

FOR MORE INFO PLEASE CONTACT TRADESCAPE:

 0161 706 1414       [INFO@TRADESCAPE.CO.UK](mailto:INFO@TRADESCAPE.CO.UK)

**Decorative Screens & Trellis can be utilised as standalone wall decor or incorporated into a fencing system for a decorative edge.**

What tools will I need?

TAPE

SPIRIT LEVEL

HAMMER

HAND DRILL

FIXINGS

## Wall Types

To install the panels onto a wall, we suggest screwing them directly into the wall using the appropriate screws, washers, and plugs based on the wall type.

### **Plasterboard**

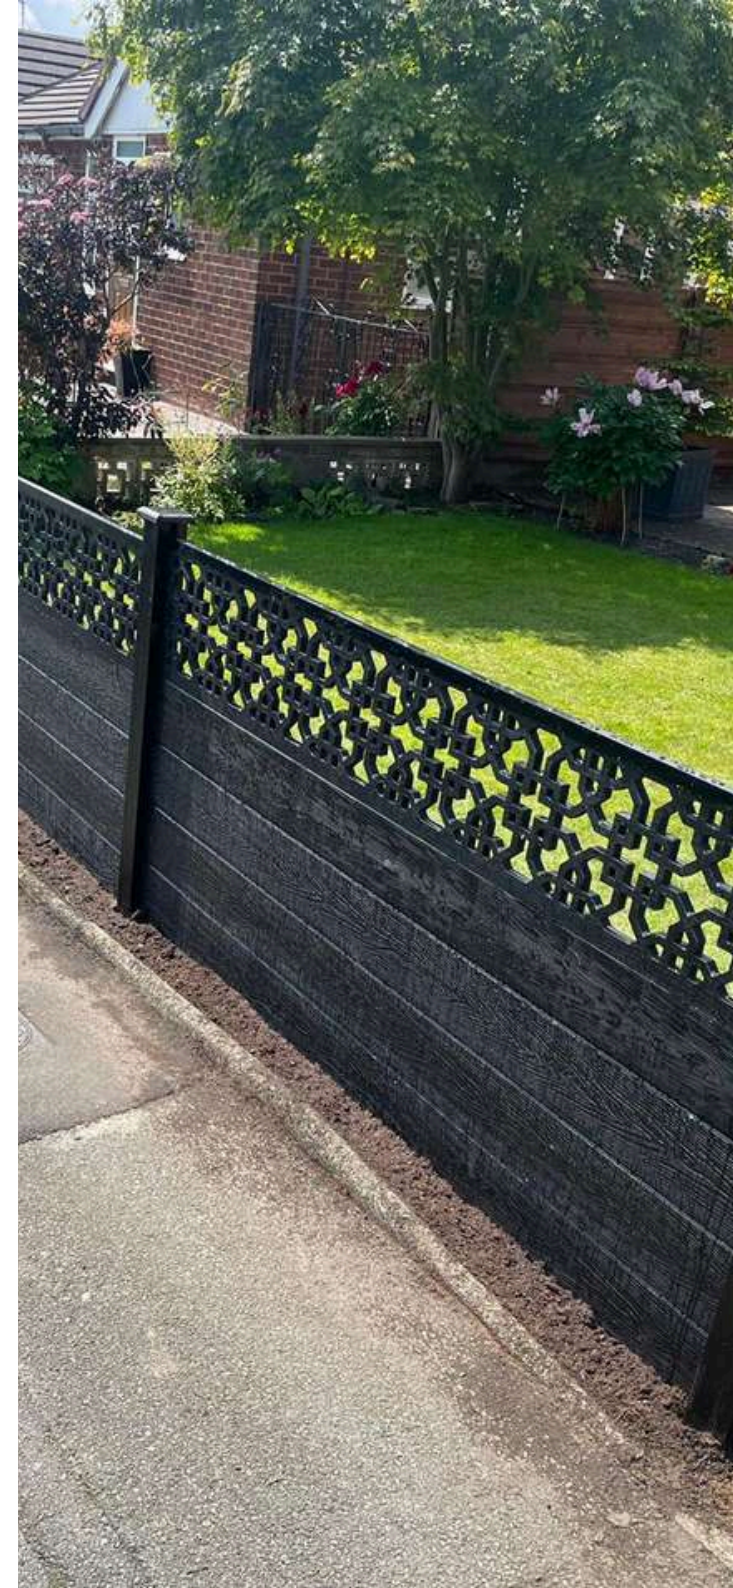

Screw directly into the wall using a 20mm plasterboard screw.

### **Timber**

Use simple timber screws, preferably with a large head or with washers.

### **Stone Wall & Concrete:**

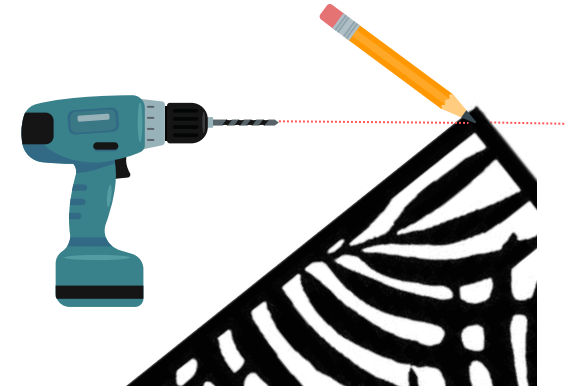

Pre-drill a hole, insert a plastic plug, and then use a screw with a washer.

# WALL INSTALLATION

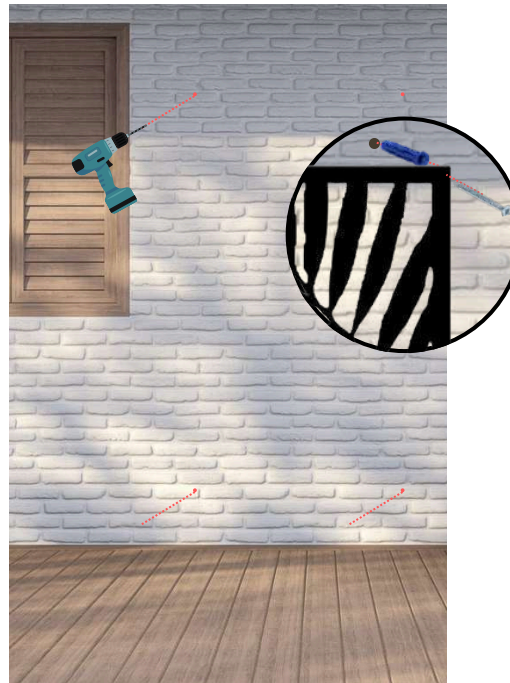

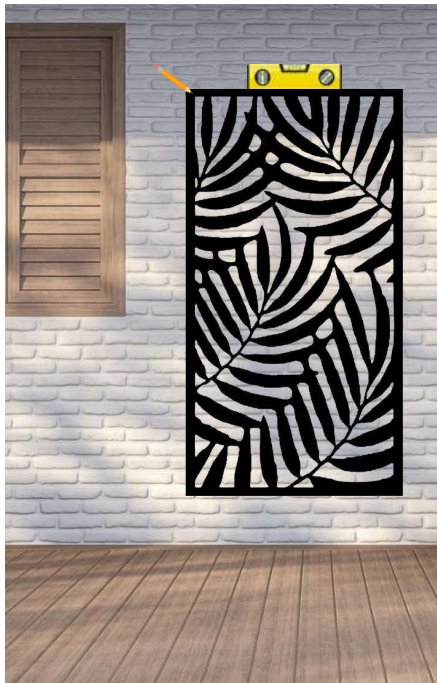

## Step 1 - Mark & Pre-Drill your Screens

- Using a pencil, mark the positions on your screens where you will attach them to the wall.
- Ensure the marks are evenly spaced from each side.
- Pre-drill holes at the marked positions on the screens.

## Step 2: Drill Into the Wall

- Hold the screen against the wall and mark the drill holes, ensuring the screen is level.
- Drill holes into the wall at the marked positions.
- Insert raw plugs into the holes, then use screws to secure the screen to the wall.

## Step 3: Repeat If Necessary

- If you are installing multiple screens or trellises, repeat the above steps for each one.
- Align them together to create a continuous feature wall if desired.

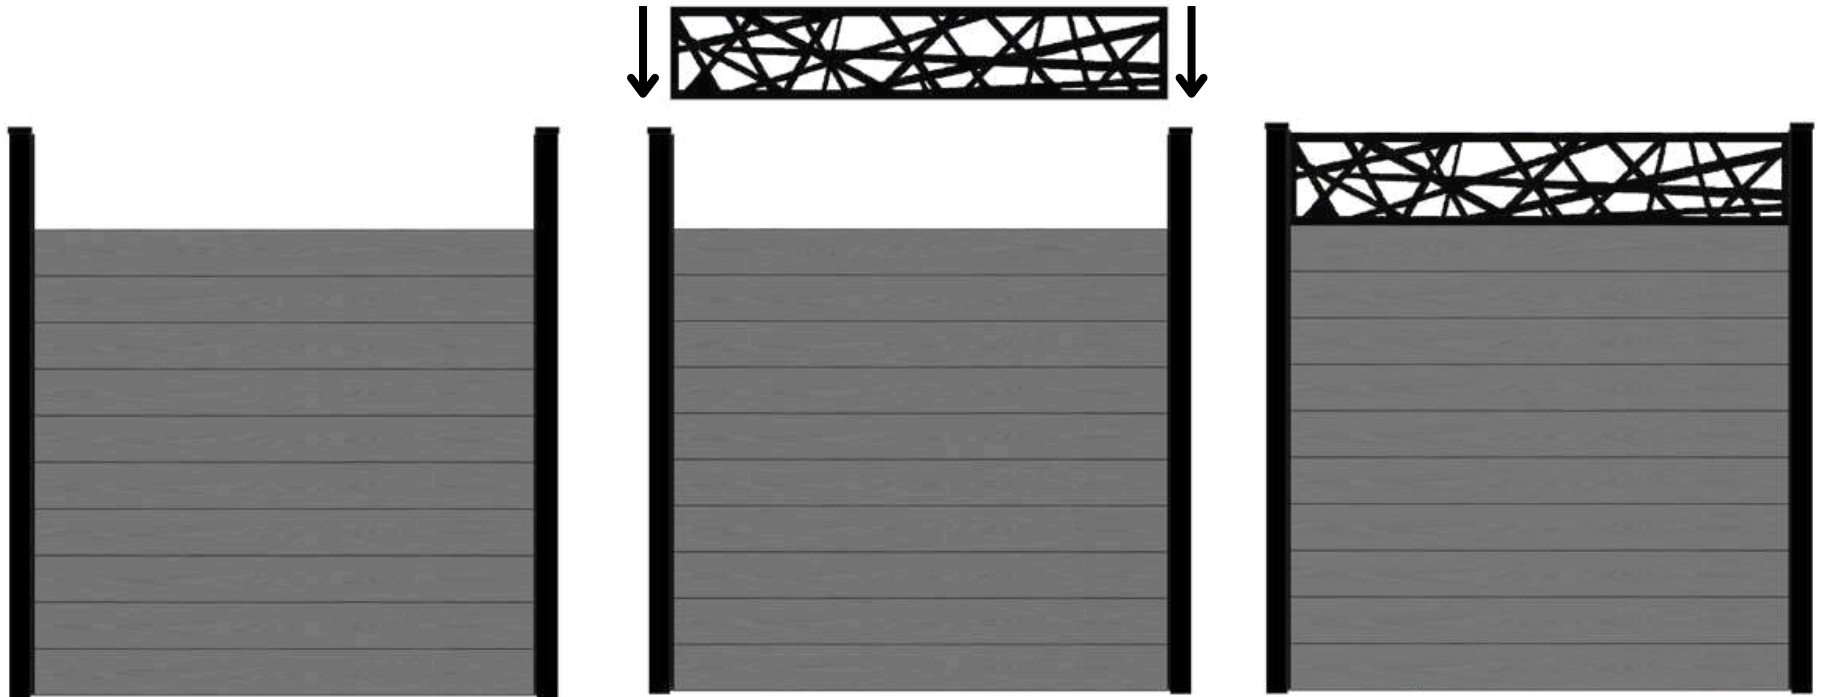

# FENCE INSTALLATION

## Step 1 - Build your Composite Fence

- Assemble your composite fence as usual, but use 2 fewer boards per panel to accommodate the 300mm trellis.
- Ensure the topmost board is a top board to provide a stable surface for the trellis.

## Step 2 - Install your trellis

- Simply drop your trellis into the fence post system.
- This system is compatible with composite, steel and concrete posts with inserts.
- Add on your post caps and your install is complete.

Repeat on all your fence panels for a modern finish to your fencing system.
